

Others Say It Best ...

Designed for Safety

- "**...entering or exiting...**"

"... especially appreciated by those residents who have difficulty walking. Because the swing has such low ground clearance, they have no problem **entering or exiting** the swing."

Dr. Tom E. Brown, Administrator
Florida Presbyterian Homes
Lakeland, FL

- "**... the solid floor ...**"

"The swing design is especially helpful for residents who are unsteady on their feet ... **the solid floor** makes maneuvering on the swing a breeze."

David Tiemersma, Administrator
Bethshan Association-Tibstra House
Palos Heights, IL

- "**...strong workmanship ...**"

"I appreciate the **strong workmanship** and structure ... of the glider."

Sister Monique Schwirtz, Co-Director
Assisi Heights, Rochester, MN

- "**... best quality ...**"

"After having assembled and installed 4 swings at our facility, I can tell you this is the easiest and **best quality product** I have had the privilege to assemble."

Kenneth Busht, Maintenance Dept.
Rest Haven•South
South Holland, IL

- "**... the lock ...**"

"**The lock** on the glider ... is a nice feature to promote safety."

Shawnda Carter, Nurse Manager
Walker Methodist Health Center, Minneapolis, MN

- "**... strong and safe ...**"

"Everyone loves the safety features ... It is built to be **strong and safe.**"

Sister Catherine Paone, Administrator
Villa Walsh, Morristown, NJ

- "**...built-in safety features ...**"

"The staff were impressed ... with the **built-in safety features.**"

Shirley Connor, Recreation Coordinator
MN Veterans Home
Luverne, MN

- "**...our residents' safety ...**"

"When I first saw the glider, I was worried for **our residents' safety**, but as it turned out they step up onto the glider by instinct without falling..."

Mary Petrie, Program Manager, Alzheimer Unit
University Good Samaritan Center
Minneapolis, MN
